Tools: Figma, Adobe Photoshop, Adobe Illustrator, Adobe InDesign, Adobe XD, Adobe After Effects

Experience

Verity Protect • Founder, Product Designer, Engineer

2026 Present • Remote

- Founded, designed, and shipped an iOS call-screening product from concept through App Store launch, owning product strategy, UX, UI, brand, backend, marketing, and support.
- Designed high-fidelity onboarding, trusted-contact, alert, transcript, caregiver, and privacy flows around low cognitive load and accessibility-informed interaction patterns.
- Built the React Native product and Twilio/Supabase infrastructure, reducing design-to-development rework by 60%; the live product has reached 100+ installs, 20 active protected users, and 400+ screened calls.

Alfa Art Gallery • Lead Graphic Design Intern

2026 Present

- Promoted to Lead Graphic Design Intern within three weeks, taking responsibility for visual direction, prioritization, and keeping design work organized and on schedule.
- Design posters, banners, brochures, annual and artist catalogs, virtual exhibitions, and branded video content while maintaining a cohesive visual language across print and digital touchpoints.
- Develop layout and typographic systems that balance visual craft, hierarchy, and production requirements for gallery communications and artist storytelling.

RSP Media • Photo Editor, Layout Intern

2024 Present • Pompton Plains, NJ

- Photograph and retouch real jewelry-brand products using controlled multi-light setups, angle testing, and color correction to preserve accurate detail and material texture.
- Contribute photography, retouching, and layout to numerous Gumuchian and Martin Flyer brand catalogs, 5+ editorial features, and marketing materials while maintaining production-ready consistency across print and digital channels.

Packanack Golf Club • Web Manager, Golf Shop Assistant

2023 Present • Wayne, NJ

- Redesigned and rebuilt the club website independently in HTML/CSS within an existing cPanel environment, restructuring every page around memberships, lessons, dining, catering, events, and services.
- Applied responsive UX, content strategy, SEO, photography, and drone production; monthly traffic grew from roughly 500 to 1,500+ views and the site introduced membership inquiry forms.
- Maintain the live web experience and coordinate updates with staff, club operations, and seasonal programming.

SageAIO • Founder, Digital Manager, UI Designer

2021 2023 • Remote

- Founded and managed a retail automation startup, coordinating a distributed team of about six developers and designers across multiple countries.
- Owned product direction and designed product and web interfaces while contributing to Go, Python, and Vue.js implementation across a restock-tracking workflow.
- Led social media strategy, PR, partnerships, and content operations, growing audience reach to 10,000+ followers; users often reported approximately $1,000 per month in resale income.

Education

Monmouth University • BFA in Design & Animation, Concentration in Graphic and Interactive Design
GPA: 3.8
